§341 Meeting Notes

Meeting of Creditors 13 **March 24, 2022 12:00 pm**

There are amendments needed. All documents are satisfied.

Need proof of withholding. Amount listed on Sch I #5a is too high per pay stubs, leading to additional disposable income to be paid to creditors. Debtor said that withholding was fixed, but when I stated that it wasn't from the information that we had pre-petition, he said he was going to fix it. Need proof. Need to maintain withholdings or increase plan payments. Prove up tax refund (\$5) listed on Sch I since no withholding and owes back tax.

Debtor lives with mother, she does not contribute to household. She filed her own bk case - name Kindell Smith, 22-02490. On her case, she lists \$800 in rent and \$552 in utilities so contribution needs to be listed in his case.

The debtor has not paid the March mortgage payment. The mortgage arrears in the last case were \$36,000, he paid \$18,000 through prior case and mortgage arrears are still \$36,000.

Debtor is to keep track of payroll deductions. In the last case, the employer wasn't taking out enough and debtor didn't supplement. Need to make sure pay payments are made in full before confirmation and that debtor is monitoring.

Emailed plan information sheet.

§341 Meeting Notes**Meeting of Creditors 13****May 3, 2022 12:00 pm**

Meeting held, no amendments needed.

Recently repaired Acura and it is drivable. Ford F150 not operating. Was working less hours in the 6 months before filing due to covid and mother's illness. DAT to prove up means test. Children are in the household. Children's mother lost her business during covid and does not contribute, in household. Also took in his nieces. His sister "makes sure they get fed" but does not provide monetary contributions. Consented to PRC. DSO needed.
